

# 2019 Annual Report

## 2019 Annual Report

Dear Friend,

Transformation can take place quickly or it can take time. In many cases, it is a process and requires hard work. The best part about transformation is that it is done together; with our community, friends, advocates and through prayer. I am excited to celebrate the transformation that took place across the world this year thanks to your prayer, financial support and volunteer efforts. In some locations, World Hope saw transformation with immediate, life-changing results. In other communities, we laid the groundwork for transformation to become a reality in the future. But in everything our purpose remained: to provide opportunity, dignity and hope to the most vulnerable communities across the globe.

This year we saw momentum build with partners joining forces in Canada to provide hope to communities in need - thank you for stepping up! We saw many volunteers help us accomplish our mission in countries like Ukraine, Sierra Leone, Cuba, Ghana and the Bahamas - thank you for pushing toward impact! We also saw individuals join with us to see projects strengthened and lives transformed - thank you for making a difference!

Your continued support has enabled us to:

- Mobilize a network of local and global nonprofit, corporate, church, and logistics partners to respond to disasters like Hurricane Dorian in The Bahamas and Cyclone Idai in Mozambique
- Drill clean water wells and provide solar-powered water systems in Sierra Leone, Liberia and Haiti
- Continue to strengthen our Hope House program in Ukraine and see new families encouraged to become foster parents
- Improve our community-based, year-round therapy and social support services to children in Sierra Leone with disabilities and their families
- Strengthen community and government responses to gender-based violence I am grateful to partner with you to provide hope to those who are most vulnerable.

Thank you for an amazing 2019 and please pray as we look forward to 2020 with anticipation of the transformation to come.

With hope,

Tanya Renea Nace  
Executive Director

We are working alongside vulnerable populations around the world to provide opportunity, dignity, and hope through market-based and community-driven solutions. Providing programming through clean water and energy, global health, protection, and social ventures, our projects empower, protect, and build resiliency. When people have sustainable solutions in place, a future not only becomes imaginable; it becomes possible--and that inspires a powerful hope.

# Our Work

# Clean Water & Energy

- Produced **83,000+** gallons of clean water to **2,000+** people in the Bahamas with Katadyn mobile aquifers and provided **8,200** people with power in partnership with Tesla.
- **59** Canadian volunteers went to the Bahamas to help provide fresh water and rebuild roofs.
- Across **5** countries, **40,171** individuals gained access to safe drinking water services.
- **9,000+** people received improved service quality from an existing basic water service in Sierra Leone and **245** individuals gained new access to basic sanitation services.
- Water and sanitation projects in Sierra Leone trained **47** water pump technicians and **922** community members on water, sanitation, and hygiene practices.
- Farmers and families of the Thera Metrey project in Cambodia received the installment of **100+** toilets and access to water to benefit **428** people.
- TapEffect in Cambodia connected **100+** houses with clean water providing **460** people with easily accessible drinking water in their homes.

# Global Health

- In Ukraine, provided **5** Hope House participants with dental care and dental surgery.
- In partnership with the Cuban Meds program we sent **2** volunteers and **25** pounds of primary care medicine kits to Cuba.
- Delivered over **12.6** million dollars worth of pharmaceutical drugs and medical supplies to Sierra Leone and the Kamakwie Hospital.
- Conducted visitations with **1,008** children with disabilities in clinic, made **1,138** home visits in Sierra Leone while supplying **321** pieces of specialized equipment to children.
- Helped to assess the cause of death of over **900** children below age two in Sierra Leone.
- **379** school meals were provided to students in the Philippines and Cambodia.
- In the Philippines, **300** people received deworming medication.
- **161** children received nutritional support through child sponsorship in Sierra Leone and the Philippines.
- Through the Enable the Children program, **9** rehabilitation therapists were trained on in-home based therapies while **391** local stakeholders were sensitized about the needs of children with disabilities.

# Protection

- In Ukraine, **170** Canadian sponsors helped **21** participants in the Hope House program receive education and access life skills.
- With the support of Child Sponsorships, **1,835** children were assisted with tuition, uniforms, and educational materials.
- **284** community members were trained on child protection and referral mechanisms, and **210** participants attended dissemination workshops for current data on child trafficking to spread awareness throughout communities in Sierra Leone.
- In an effort to diminish human trafficking in Sierra Leone, **250** local stakeholders participated in reviewing the Anti-Human Trafficking Act of 2005 while **120** border law enforcement officials were trained on child protection.
- In Bosnia, **178** children and adults participated in English classes, 68 participated in learning a new language, while another **132** participated in educational seminars.
- In the Philippines, **119** children were assessed regarding their psychological functioning, **127** children received therapeutic services, and 84 children were assessed to be reintegrated, while **132** social workers were trained in OSEC related topics.

# Social Ventures

- In Cambodia, **182** mushroom grow houses were run by **121** different families to support the livelihood of **556** individuals and benefit the community.
- Project Reach Out constructed a library and computer lab serving **1000** Junior and Senior Secondary School students and community.
- Globally, WHI donors provided:
  - Through the GRO greenhouse project in Sierra Leone, **650** farmers received quality seed inputs and farming tools and training.
  - **80%** of GRO Greenhouse vegetable growers are now selling their crops and produce through caterers, hotels, restaurants and individual consumers.
  - **13** Indigenous Agay women participated in economic empowerment training in the Philippines.
  - In Sierra Leone, over **500** customers are using Mobile Power appliances across **15** business sites, while PowerGen solar power stations are in **97** communities.

**Alfred has been raised by his mother and grandmother** as his father died at the time of his birth. He is delayed in his development and has a left-sided weakness. Before his mother met the Enable the Children team in Freetown, she shared that she held a lot of discouragement and grief over her son's condition. All that changed, though, when Enable the Children staff started working with their family and Alfred began to exhibit improvement from therapeutic exercises.

One of World Hope's 118 sponsored children in the ETC sponsorship program, Alfred also receives funding to pay for his school fees, alleviating the burden of cost from his family during the year. Thanks to the generosity of his sponsor this year, he received a few new clothes and food supplies, as well.

In 2019, Enable the Children launched a series of successful sports events in the community that have even led to positive conversations with the Special Olympics committee. Isha Johansen, the President of the Sierra Leone Football Association, announced a partnership with Enable the Children, and children in the program were able to meet and play alongside their national soccer team, the Leone Stars. This new development could lead to some exciting prospects in Disability Sports - and is an incredible advocacy opportunity for diversity and inclusion. "I love seeing peoples' minds be changed by the determination of the human spirit," shared Robert Brugler, a member of the support staff with Enable The Children (ETC).

In September, Alfred was thrilled to be able to join 24 other children in getting to meet the Leone Stars. It was a special honour for Alfred to not only see some of the best players in the country up close, but to also pass the ball back and forth and spend time with the players.

For a child who loves football and has had a rough start to his young life, being part of Enable the Children and getting the chance to meet the Leone Stars was a great experience for him-- and a story echoed through many of our 800+ current patients who benefit from the services and encouragement of the Enable the Children Program.

**“I am not sure what would have happened to me and my son if Enable**

**the Children had not got involved. My son has improved so much and now he is playing football with the Leone Stars. Usually people move away from me because of my son’s condition, but you embrace him for who he is”**

**-Alfred’s mother**

## 2019 CONSOLIDATED FINANCIAL SUMMARY

*For the Year Ended  
December 31, 2019*

World Hope International (Canada) is a registered charity (charitable #86950 0173 RR001) committed to maintaining the highest standards of fiscal responsibility, accountability, and transparency. The complete audited financial statements are available at [www.worldhope.ca](http://www.worldhope.ca)
